

KG10M Time Switch

1. General

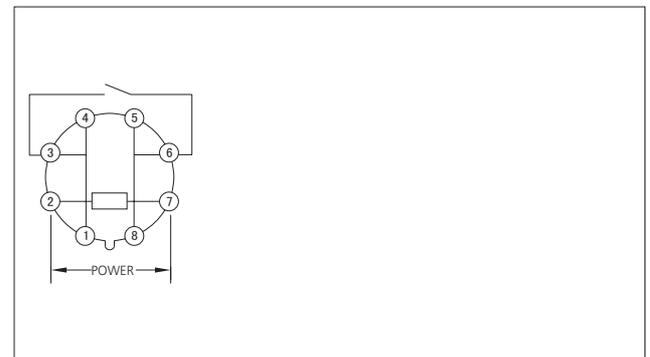

KG10M Time Switch can automatically turn on or turn off power supply of various consumer equipments according to preset time by user. The controlled objects are circuit equipments and household appliances such as street lamps, neon lamps, advertising lamps, manufacturing equipments, broadcast & television devices etc. Which requires turning on and off at definite time.

2. Technical data

Operating mode	Time automatic control
Rated operating voltage	AC220V 50Hz/60Hz
Applicable voltage range	(85%~110%)Ue
Rated operational current	AC-15 220V 3A
Contact number	1 NO
Times of ON/OFF	16-opens & 16-closes
Electrical life	1×10^5
Mechanical life	1×10^6
Battery	Internal Rechargeable Battery
Time-controlling range	1 min~168h
Timing error	$\leq 2s/day$
Consumed power	$< 4VA$
Relative humidity	$\leq 95\%$
Ambient temperature	$-25^{\circ}C \sim +60^{\circ}C$
Installation mode	Panel type
External dimension	$58.4 \times 52.4 \times 124.6$
